

Scientific Committee

Prof. Christian Kurzeder, Breast Cancer Center, University Hospital Basel
Prof. Marcus Vetter, Medical University Clinic, Canton Hospital Baselland
PD Dr. Khalil Zaman, Breast Center, Lausanne University Hospital CHUV

Organisation

Regula Gschwind
Breast Cancer Center, University Hospital Basel
Spitalstrasse 21, 4031 Basel
regula.gschwind@usb.ch

Speakers

Prof. Oleg Gluz, Chief Senology,
Breast Center Niederrhein, Germany

Prof. Christian Kurzeder, Chief Senology,
Breast Cancer Center, University Hospital Basel

Prof. Marcus Vetter, Chief Oncology & Hematology,
Cantonal Hospital Baselland

PD Dr. Khalil Zaman, Head of Specialized Breast Care,
Breast Center, Lausanne University Hospital CHUV

2 Credits SGGG

2 Credits SGMO

The certificate of participation will be sent to your personal email address after the event (according to the guidelines of the professional societies).

5th Swiss Annual Meeting on HER2 positive Breast Cancer and ADCs

Thursday, April 23, 2026, 17.00–19.00 p.m.

Local Symposium & Webinar in Basel & Lausanne

Location in Basel:

University Hospital Basel
Hörsaal 2, B2, 2. Stock/Klinikum 1
Spitalstrasse 21, 4031 Basel

Location in Lausanne:

Tibits, Place de la Gare 11, 1003 Lausanne

The event are free of charge

Dear colleagues

The therapeutic landscape of HER2-positive breast cancer continues to evolve at remarkable speed. What was once a clearly defined biological entity has now expanded into a far more nuanced continuum—driven in particular by the rapid development of antibody–drug conjugates (ADCs). These advances are not only improving outcomes in HER2-positive disease, but are also reshaping treatment paradigms in HER2-low and even traditionally HER2-negative settings.

With these innovations come new clinical questions:
How far should we escalate therapy in curative settings—and in whom?
Where can we safely de-escalate without compromising outcomes?
How should we optimally sequence ADCs and integrate them across disease stages?

The **5th Swiss Annual Meeting on HER2-positive Breast Cancer and ADCs** is designed to address exactly these challenges—translating the latest evidence into **practical, decision-oriented strategies** for daily clinical care.

This year, we introduce a **new interactive format**, connecting two leading Swiss teams – **University Hospital Basel and the Romandie Breast Centers** – in a **live, bilocal discussion with real-time exchange**. This setting will foster dynamic debate, multiple expert perspectives, and direct audience engagement across both sites.

Our goal is not only to summarize recent advances, but to critically discuss how these developments **impact current treatment decisions and future strategies**.

We warmly invite you to join this interactive session – on site in Basel or Lausanne, or via webcast – and to actively contribute to what promises to be a highly relevant and practice-changing exchange.

We look forward to welcoming you.

Prof. Christian Kurzeder
Chief Senology,
Breast Cancer Center,
University Hospital Basel

PD Dr. Khalil Zaman,
Head of Specialized Breast
Care, Breast Center,
Lausanne University
Hospital CHUV

Prof. Marcus Vetter
Chief Oncology & Hematology,
Cantonal Hospital Baselland

Program

Thursday, April 23, 2026, 17.00–19.00 p.m.

17.00–17.05	Introduction	Chairs Basel/Lausanne
17.05–17.25	Smart Escalation in Curative HER2+ Disease: Who Needs More and When?	Prof. Oleg Gluz
17.25–17.45	Precision De-escalation in Early HER2+ Breast Cancer: Who Needs Less?	Prof. Christian Kurzeder
17.45–18.00	Discussion	Chairs Basel/Lausanne
18.00–18.20	Redefining First-Line and Sequencing in Metastatic HER2+ Disease	PD Dr. Khalil Zaman
18.20–18.40	Escalation and de-escalation strategies in Her2 positive and triple negative early breast cancer	Prof. Marcus Vetter
18.40–19.00	Discussion	Chairs Basel/Lausanne
19.00	Location Basel and Lausanne: Afterward we would like to invite you to an aperitif	

Registration is required

- ➔ To attend this event in **person (on site) Basel or Lausanne**, please register to: regula.gschwind@usb.ch
- ➔ To attend this event **online**, please using the following link or OR-code:

link for online registration

After registration, the access link will be sent to you automatically by e-mail.
