

Registration and further information

unispital-basel.ch/baselworkshop

Deadline: September 18th 2022
E-mail: michele.raiser-paulus@usb.ch

Phone: +41 61 265 72 18
Fax: +41 61 265 72 38

Congress fee: CHF 300
Credits: 12 points for SGT and SGC

Host

Prof. Didier Lardinois
Department of Thoracic Surgery
University Hospital Basel

Venue

Biozentrum, University of Basel,
Spitalstrasse 41, 4056 Basel

Institute of Anatomy, University of Basel,
Pestalozzistrasse 20, 4056 Basel

Organisation

Prof. Didier Lardinois
Dr. Zeljko Djakovic
Dr. Aljaz Hojski
Michèle Raiser-Paulus

SBD-10.2023

This workshop is recommended by the SFCTCV, the Collège CTCV and the SGT/SGC

Faculty 2023:

D. Lardinois, Universitätsspital Basel, Basel, CH
G. Massard, Hôpital Universitaire du Luxembourg, Luxembourg, L
P. Moreno de la Santa Barajas, Hospital POVISA, Vigo, E
S. Raab, Klinikum Augsburg, Augsburg, D
S. Schulz-Drost, Helios Kliniken, Schwerin, D
X.-B. D'Journo, Hôpital Nord APHM Marseille, Marseille, F
K. Homsy, Centre Hospitalier Universitaire Charleroi, Charleroi, B
P. van Huijstee, Haga Ziekenhuis, Den Haag, NL
M. Gooseman, University of Hull, United Kingdom

Current Concepts of Chest Wall Stabilization and Reconstruction

7th Basel Workshop

October 12th – 13th 2023

Dear Colleagues

It is our great pleasure to invite you to the 7th Basel Workshop on Current Concepts of Chest Wall Stabilization and Reconstruction. The Workshop is focused on the management of rib fractures, sternum fractures, and on the different aspects of chest wall resection and reconstruction. The main goal of the workshop is to give a neutral presentation of different systems and to give the opportunity to the participants to become familiar with the different techniques of fixation and osteosynthesis.

The venue of the first day is the fantastic Biozentrum of the University of Basel. The content of the lectures will be illustrated with interesting and practical cases by use of interactive tools in a round table setting.

The second day, the participants will have the unique chance to exercise over the different systems on human bodies at the Anatomical Institute of Basel. First, didactic video supported demonstrations will be performed and then, hands on training will be available for each participant.

An outstanding panel of international experts will support the participants during the interactive presentations and the didactic practical part.

Register now, we are looking forward to welcome you in Basel,

Prof. Didier Lardinois
Head, Department of Thoracic Surgery

Dr. Aljaz Hojski
Consultant, Department of Thoracic Surgery

Dr. Zeljko Djakovic
Consultant, Department of Thoracic Surgery

Scientific Program

October 12th

Biozentrum - Spitalstrasse 41, Basel

14.15–14.25

Introduction to the Workshop
Part 1, Interactive Illustration of Indications and Results:

14.25–16.45

- 1. Pain management and peridural analgesia by chest trauma**
- 2. Isolated sternum fracture**
- 3. Infection after trauma and rib fixation**
- 4. Indications for reconstruction after chest wall resection**
- 5. Removal of osteosynthesis material**

16.15–16.45

Break

17.15–18.45

Part 2, Current State of the Art, Interactive Illustration of Indications and Results in:
Surgical Stabilization of Flail Chest and Fixation of Rib Fractures
Osteosynthesis of the Sternum and Treatment of Dehiscence Chest Wall Resection and Reconstruction

18.45

Closing Remarks day 1

October 13th

Institute of Anatomy, Pestalozzistrasse 20, Basel

8.00–15.15

Part 3, Didactical Demonstration with Technical Aspects

8.00–10.00

Sternum Fractures, Dehiscence, Prothesis with practical Handling of different Systems

10.00–10.30

Break

10.30–12.30

Rib Fixation with practical Handling of different Systems

12.30–13.30

Break

13.30–15.30

Chest Wall Reconstruction with practical Handling of different Systems

15.30–16.00

Closing Remarks Day 2 and Evaluation
