GlideRite Rigid Stylet

The GlideRite® Rigid Stylet is specifically designed to work with GlideScope video laryngoscopes.

The angle of the GlideRite Rigid Stylet complements the unique angle of the GlideScope instrument to help facilitate quick placement of an endotracheal tube and to help reduce patient trauma.

FEATURES

► Provides improved maneuverability for placement of endotracheal tube
► Constructed of durable, reusable stainless steel
► Easy to clean or sterilize in an autoclave
► Designed for use in ET tubes 6.0 mm and larger
► Convenient and cost-effective
► Available in packs of 10
► Easy to use, learn, and teach
► Stylet Rod length is 266 mm

Specifically designed to work with GlideScope Video Laryngoscopes

• Stylet/ETT insertion can be viewed in real time, helping ensure accurate tube placement
• GlideScope video laryngoscopes offer a consistently clear view of the airway and enhanced maneuverability for fast intubations anywhere, by any airway clinician—from novice to expert
• Reusable and single-use configurations of GlideScope instruments offered
• Available in a variety of sizes to cover a wide range of patients—from preterm to morbidly obese
GlideScope video laryngoscope systems are CE marked in accordance with the Medical Device Directive, and the Verathon Inc. quality system is Quality System Certified to ISO 13485:2003 standards. US Patent No. 6,655,377; 6,543,447; International patents pending.

GlideRite Auto Stylet

The GlideRite® Auto Stylet is optimized for use with GlideScope® video laryngoscopes.

Designed for direct delivery of an endotracheal tube into the glottis, the GlideRite Auto Stylet offers enhanced maneuverability for successful intubation.

FEATURES

► Ergonomic one-press design to advance the ET tube
► Adjustable to work with tubes of varying lengths (including cut tubes)
► Complements the unique angle of the GlideScope video laryngoscope
► Easy to clean or sterilize in an autoclave
► Designed for use in ET tubes 6.0 mm or larger
► Reusable
► Available in packs of 2
► Stylet Rod length is 347 mm

GlideRite DLT Stylet

The GlideRite DLT Stylet is designed to work with GlideScope video laryngoscopes to enable placement of a double lumen ventilation tube.

Use of the GlideRite DLT Stylet may facilitate intubation by helping overcome obstructions such as vocal cords, arytenoids, and the cricothyroid membrane depression.

FEATURES

► Provides improved maneuverability for placement of the double lumen tube
► Complements the unique angle of the GlideScope video laryngoscope
► Easy to clean or sterilize in an autoclave
► Designed for use in double lumen ventilation tubes 6.0 mm and larger
► Reusable
► Available in packs of 10
► Stylet Rod length is 394 mm
