Scope: Diagnostics and treatment of both female and male infertility and of female endocrine disorders. Application of all treatment modalities in assisted reproductive medicine, including hormonal ovarian hyperstimulation, intrauterine insemination, in vitro fertilization (IVF), intracytoplasmic sperm injection (ICSI). Processing semen donation, XY-sorting of spermatozoa in cases with an X-chromosome linked hereditary disease and semen analysis with quantification of DNA fragmentation using TUNEL. Cryostorage of male and female gametes and embryos for medical family planning reasons. Providing prenatal care until the 13th week of gestation. In house psychological support. Academic teaching and research, constantly adapting methods following updated scientific evidence.

Proof has been furnished by means of an audit that the requirements of ISO 9001:2015 are met.

Validity: The certificate is valid from 2018-05-08 until 2021-05-07.
