

# AF Update 2019 - SWISS-AF & BEAT-AF

Donnerstag, 29. August 2019

**Referent: Prof. Stefan Osswald**

### Swiss-AF Overview

- Design: Prospective observational cohort study at 14 centers in Switzerland (SNSF sponsored)
- Aim: Prevalence of silent brain lesions and effects on cognitive function in AF patients
- Inclusion: April 2014 - August 2017
- Population: 2'415 patients with AF enrolled
- Follow-up: Brain MRI scans 0 and 2 years  
Blood sampling at 0, 2 and 5 years  
Cognitive assessment yearly (ongoing)  
Clinical outcome yearly (ongoing)
