

Seminar Series

“Patient-specific Models of Cancer (PMC)”

Schedule 2020

Seminar 1: 06.10.2020, 12h30-13h30,
Kleiner Hörsaal ZLF

Topic: Patient-derived organoids for disease modeling and personalized medicine

“Generation of organoids derived from prostate cancer patients: a comprehensive study”

Raphaëlle Servant (Research Group: Translational GU Cancer Research)

“The use of organoids as model for precision medicine”

Federica Panebianco (Research Group: Visceral Surgery and Precision Medicine)

Seminar 2: 01.12.2020, 12h30-13h30

Kleiner Hörsaal ZLF

Topic: Bioreactor models for experimental cancer research

“Perfusion-based bioreactor for translational research”

Manuele Muraro (Research Group: Tissue Engineering)

“Multidimensional personalized response assessment to immunotherapy in Glioblastoma bioreactor”

Tala Shekarian (Research Group: Brain Tumor Immunotherapy)
